

Dear Dad and Mom:

Time flies! It has been almost two years after I backed home last time. How are you doing recently?

Haven't seen you for a while, we miss you very much! Taking this opportunity, we'd love to invite you (Father AAA; Mother BBB) to visit us for upcoming Canadian Thanksgiving Festival and Christmas!

As special festivals for family reunions, both Thanksgiving and Christmas are festivals full of Canada culture. Family and friends come together during these festivals for celebration as well as for showing gratitude to any help received during the year. We hope you would enjoy the two festivals with us during your stay. Besides festivals, we also would like to show you around. We will take you to visit some of the beautiful Canadian resorts and cities, such as Ottawa, Montreal, Quebec City and so on.

We will cover all the travel and living expenses during your visit, including your airfare for all return tickets, food, housing, traveling within Canada, medical insurance and the other expenses.

Please take our best wishes to our relatives! We believe they will take good care of your place during your absence. They surely will also miss you very much during your visit to Canada. You can buy your own gifts for our relatives and your friends when you are back China.

We cannot wait to see you soon! We sincerely look forward to your upcoming visit!

Kind regards and best wishes,

Yours love,
